## It's Mountain Bike Race Season for WHS

By Javier Arroyo

The Woodcreek High School Mountain Bike Club starts off its 3rd season of racing Sunday March 1st at the East Garrison race course in Monterey, CA. The club is open to girls and boys attending Woodcreek High School and was founded in August of 2006 by students who were assisted by health teacher Chris LaFazia and local rider Coach Jim Winne. The club has grown from eleven student athletes during their first year to 31 for the 2008-2009 Season. The club is a member club of the NorCal High School Mountain Bike Racing League. This league was established in 2001 to promote interscholastic competitive high school mountain bike racing. Each year, there are five league race meets at various locations in northern and central California. You can catch the racing action locally at Granite Bay Beach at the second race of the season on Sunday, March 15th.

For more information visit the club website at <http://www.weracemountainbikes.com>

## Theatrical Playoffs

It's not the Superbowl, or the NBA Playoffs, or even Roller Derby... but the world of Community Theatre has its competitive side.

Magic Circle Theatre will host

## Roseville Responds To Bureau's First Water Supply Announcement

Last month the City of Roseville's Environmental Utilities Department increased its voluntary Stage One Drought Level to a mandatory Stage Two Drought Level requiring water

following:

- All Stage One Drought Level measures remain in place; except where more restrictive conditions are imposed
- Increases water waste patrols

the AACT (American Association of Community Theatre) State and Regional Theatre Fest on March 13 and 14 in our Roseville Theatre location, 241 Vernon St., Roseville.

On Friday, March 13 theatres from California will each perform a different one act play (50 minutes or less). They could be musicals, classics, comedies, dramas... the field is wide open. Whatever best shows off their talents. One theatre group will be invited to perform in the Regional event the next day.

On Saturday, March 14, theatres from Region 8 (including California, Hawaii and Arizona) will gather in the Roseville Theatre to perform for the right to go on to the AACTFest in Tacoma, WA in June and compete against theatres from all over the country.

The public can purchase tickets to watch this amazing event by contacting Magic Circle Theatre at (916) 782-1777, or going on-line to Placer Valley Tourism ([www.placervalleytourism.com](http://www.placervalleytourism.com)). For \$25 they can watch two days of amazing performances.

customers to reduce water use by 20 percent. This announcement stems from the joint briefing from the U.S. Bureau of Reclamation (USBR) and the Department of Water Resources on 2009 water supply allocations from the Central Valley Project. The briefing, which was the Bureau's first water supply forecast for 2009, reported that Roseville's water supply will be reduced by 50 percent.

"We have been working very hard the past few months preparing for this announcement," said Derrick Whitehead, Director of Environmental Utilities. "With Roseville's water supply being cut by 50 percent, we need to activate a Stage Two Drought Level now and will monitor the available water supplies over the next few months to evaluate the need to increase the level of water conservation throughout the community."

On April 30, 2008, the City of Roseville activated a Stage One Drought alert within the Roseville city limits when the USBR reduced Roseville's water supply for the 2008 calendar year by 25 percent.

A Stage Two Drought Level does the

beyond Stage One levels to ensure water is being used efficiently and leaks in residential and commercial properties are repaired per the Roseville Municipal Code

- Requests all city water users to reduce their water use by 20 percent
- Nonresidential users shall reduce irrigation by 30 percent for existing landscaping
- Washing of vehicles or boats is prohibited except when using a hose that is equipped with a control nozzle capable of completely shutting off the flow of water; or when washed in either an automatic or manual commercial car wash. This exemption does not apply to temporary car washes, held for fundraising purposes, or to any car wash in which the water is applied via a hand held garden type (non-pressure) hose.

The city will continue to evaluate water supplies and the level of Folsom Reservoir over the next few weeks and take further action as needed. The city is working with neighboring water agencies
